MTS PJSC regularly (annually) conducts a benchmarking analysis of the Company's corporate governance practices as compared with other public companies. Consideration of benchmarking takes place on the site of the ESG Committee (Corporate Governance, Environmental and Social Responsibility Committee) of the Board of Directors of MTS PJSC. During the Committee's meetings, recommendations of the Code that are not adhered to by the Company are analysed and the practicability of their implementation is assessed. This recommendation of the Code has been considered by the Committee and the Board of Directors many times before. The members of the Board of Directors of MTS concluded that the level of corporate governance achieved by the Company and the created constructive discussion environment do not require implementation of this recommendation of the Code.

The Charter of MTS PJSC does not contemplate that the decisions on the issues specified in Recom-mendation 170 of the Code shall be made at a meeting of the Board of Directors by the qualified majority, with at least three fourths of votes, or by the majority of votes of all elected members of the Board of Directors. In accordance with the Charter of MTS PJSC, decisions on most issues falling within the compe-tence of the Board of Directors, are taken by the simple majority (more than a half (1/2) of votes of the members of the Board of Directors attending the meeting). A small number of issues requires a unanimous decision by all members of the Board of Directors, except for retired members of the Board of Director. In practice, the specified recommendation of the Code is complied with: during the recent years, more than 90 % of the Board of Directors' meetings have taken place with 100 % participation of members of the Board of Directors, Therefore, in most cases, the simple majority of votes of the Board of Directors' members attending a meeting is comparable to the majority of votes of all elected members of the Board of Directors. After approval of the Code, the issue on implementation of the recommendation was considered by members of the Corporate Governance Committee of the Board of Directors of MTS PJSC with involvement of other members of the Board of Directors and the management. The Committee came to the conclusion on unreasonableness of introducing stricter procedures for decision-making by the Board of Directors of MTS PJSC, including due to the fact that their implementation may negatively impact urgency of decision-making. Risks related to incomplete compliance with the recommendation are levelled out by traditionally high attendance of the Board of Directors' meetings by its members, as well as by decision-making procedures adopted at the Company: decisions made by the Board of Directors are based on the consensus of all members of the Board of Directors, and key decisions are first elaborated by independent members of the Board of Directors within the framework of committees' work. In connection with the above, the Company does not plan to achieve full compliance with this recommendation of the Code in this part. At the same time, the Company will continue monitoring the compliance with this recommendation of the Code by the Russian issuers and will evaluate the opportunity of its implementation at MTS PJSC (depending on changes happening in the field of the Russian corporate governance).

The task to describe the individual duties of the Directors and Chairman of the Board of Directors was not included into the list of functions of the Remuneration and Nomination Committee of the Board of Directors of MTS PISC for two main reasons: 1) main duties of members of the Board of Directors (including the Chairman of the Board of Directors) are clearly defined in the Regulations on the Board of Directors of MTS PISC;	

1 2 3 4 5 6

2) the composition of the Company's Board of Directors is relatively stable. Therefore, the scope of individual duties of each Director has already been formed, and the Company believes that additional description of duties of Directors by the Committee would be of exclusively formal nature and would not be a catalyst for increased efficiency of the Board of Directors' work.

The risks related to partial compliance with this recommendation are also levelled out by implementation at the Company practice of an on boarding course for newly elected members of the Board of Directors, which also contains description of duties of Directors and the Chairman of the Board of Directors. In connection with the above, it was decided that it would be inappropriate to include the objective specified in subparagraph 4 of Recommendation 186 of the Code into the functions of the Remuneration and Nomination Committee of the Board of Directors of MTS PJSC

The Company does not plan to include this objective into the functions of the Remuneration and Nomination Committee of the Board of Directors of MTS PJSC and to achieve full compliance with this recommendation of the Code in this part.

3. In the reporting period, the Nomination Committee, independently or jointly with other Committees of the Board of Directors, or the Company's authorized subdivision for shareholder relations, arranged interaction with shareholders, not limited to the circle of largest shareholders, in the context of the selection of candidates to the Board of Directors of the Company in order to form a Board of Directors that best meets the Company's goals and objectives

The tasks of the Remuneration and Nomination Committee of the Board of Directors of MTS PJSC also include interaction with the shareholders that should not be limited to the circle of the largest shareholders, in order to generate recommendations for the shareholders in respect to voting on the issue of candidates election to the Company's Board of Directors.

in the reporting year, the majority of candidates (including a strong pool of independent candidates) for election at the Annual General Meeting of Shareholders of MTS PJSC held on June 18, 2023 were proposed by the Company's Board of Directors. As a result of the above AGM, independent directors took the majority of seats on the Board of Directors of MTS PJSC. Thus, the Company actually did not need to search for additional candidates. Inclusion of a large number of independent directors into the Board of Directors of MTS PJSC also helped to mitigate the risks that could have occurred since the Company in the reporting year did not resort to the help of shareholders when selecting candidates to the Board of Directors of the Company

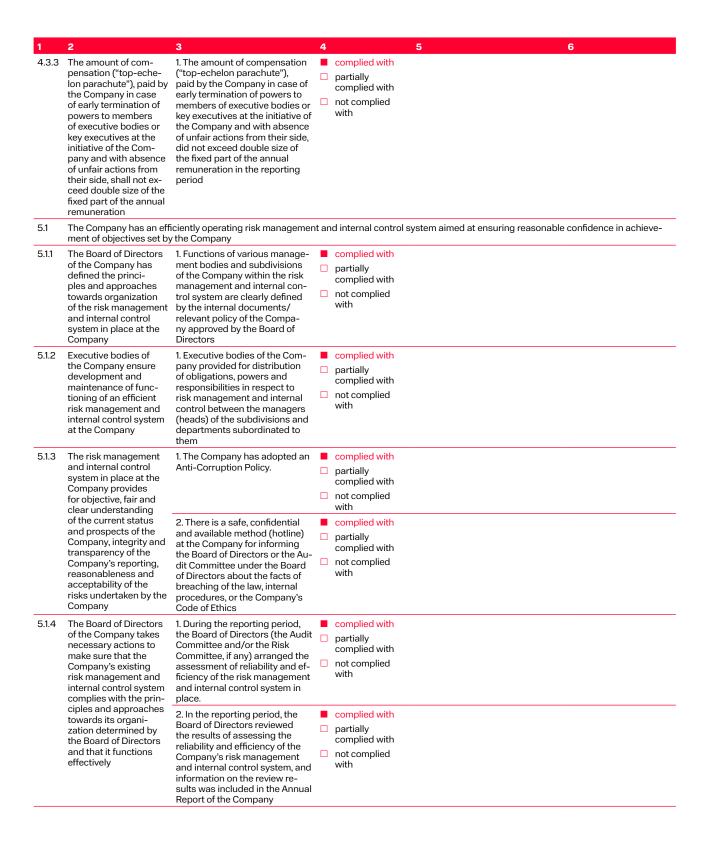

In the future, in order to establish the Board of Directors that meets the objectives and tasks of the Company to the fullest extent, MTS PJSC will try to organize cooperation with the shareholders in the context of selecting candidates to the Board of Directors whenever it becomes necessary.
